

Active Reading

Learning to love reading

5 tips for reading

- 1** Don't use the dictionary too much. Only look up a word if it stops you understanding the text.
- 2** Try to read something everyday: a book, a newspaper or a website. Choose texts you enjoy!
- 3** Think about why you are reading a text. Then choose the best way of reading it.
- 4** Learn five new words every day. Choose words you have seen in the texts you read.
- 5** Try reading graded readers. They are specially written to match your level of English.
