

Online promotional materials - program description

Please feel free to use this text to promote Clear Pronunciation 2 to your students.

Improving your pronunciation can make a big difference in your life. Do you have a speaking exam, a job interview, or use English at work or school? You'll need to make sure others can understand you. In this program, you will learn to speak clearly and confidently.

In Clear Pronunciation 2 you'll learn to use consonant clusters, word stress, sentence stress, connected speech and intonation. If you don't know what all of these things are, that's ok! You'll get to know what they mean as you go through the program.

You'll watch tutorials from teachers, listen to plenty of native-speaker examples, work through lots of different speaking exercises, and you can even compare your pronunciation to the examples, using the Clarity Recorder.

Remember: it's not just what you say that counts, it's also the way you say it.
