

# Study Skills Success

## Preparing to study in English

### 5 study skills tips

- 1** Develop an effective system for taking notes. Try the Cornell system (see the Research unit for details).
- 2** It is important to learn how to give opinions in English. It is equally important to know how to back them up.
- 3** Before you attend a lecture, read as much as you can on the subject. This helps you predict the content and understand more.
- 4** When you are researching, do you believe everything you read? Learn to think critically.
- 5** Revise, revise, revise! If you don't look at your notes, you'll forget 50% of what you have learned after just 24 hours.
